Forecast for Wednesday 20 Jul 2022

Weather: A cloudy start to the day with perhaps the occasional drizzle during the early hours. Cloud slowly breaking during the morning to give some bright or sunny intervals but a chance of a shower breaking out briefly. Increasingly dry with long sunny periods during the afternoon. A mostly fine evening. Feeling much less hot and fresher in the breeze.

Chance of cloud-free hill tops above 800m: 20% becoming 95%.

Low Cloud and visibility: Very poor in cloud initially with bases as low as 500m during the early hours. Cloud rapidly lifting above summits before midday, allowing visibility to become very good at all heights in the afternoon.

Freezing Level*	3100m	3200m	3200m	3200m	3100m	2200m	2200m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Feeling a good deal less hot than on Tuesday and rather cool in the breeze on the summits. If you are heading to the summits you will need to pack extra layers.

Forecast for Thursday 21 Jul 2022

Weather: A generally dry day is expected and although there will be lengthy cloudy periods, sunny spells are also likely, especially during the afternoon.

Maximum wind: Northwest 10-15 mph

Chance of cloud-free hill tops above 800m: 60%

Low Cloud and visibility: Periods of cloud above 700-800m at first, lifting and clearing. Visibility will generally be very good but locally very poor in cloud.

Temperature: **Valleys:** Plus 9 Celsius rising to plus 21 Celsius
At 800m: Plus 8 Celsius rising to plus 13 Celsius
Freezing level: Above the summits.
